The Evolution of a Classic

2019 • Where It All Began

Fiido imagined a different kind of e-bike — light, foldable, and free-spirited. That vision became the D11.

2020 • Backed by Believers

Launched on Indiegogo, the D11 won hearts and raised over \$1M. A community of riders was born.

2022 • Grown by the Journey

Every photo shared, every story told, and every mile ridden helped refine what the D11 stood for.

2025 • Reborn as D11 2025

Inspired by the past, built for the future. D11 2025 carries the soul of the original, reengineered with smarter tech and elevated performance.

A woman with her hair in a bun, wearing a white t-shirt and dark pants, is loading a bicycle into the open trunk of a silver car. The car's trunk is open, revealing a bicycle mounted on a rack. The car has a distinctive black and white striped pattern on its side. The scene is set outdoors on a paved surface, possibly a parking lot or street, with a building in the background.

Stable.
Portable.
Fits Anywhere.
